

Welcome, VIPs!

Happy New Year, Sparkle Family!

We hope you are just as excited as we are about the fresh year ahead. 2019 was a year full of accomplishments; many of which were achieved because of your support. **Thank you.** New beginnings are a great time to assess where we've been. What went well? What could have gone better? What lessons were learned? How will things be different this year? What will continue into the new decade? If you haven't yet done so, we invite you to review the year that just passed and decide how the new one will treat you. What new limits will you push? How will you grow? What support do you need to get there? Think about it and let us know how we can help – we want the best for you; this, and every year.

As I write this New Year's message, I distinctly remember the holiday season of 1999. We were right at the doorstep of Y2K and everyone had so many predictions of what the next decade would bring. Some experts predicted global unrest, while others predicted Armageddon. Now, 20 years have passed and of course none of these things have happened. Although we did experience a few major hiccups along the way, we as a people survived and thrived, nonetheless.

So here we are now at the end of 2019, and at the doorstep of a new decade. Many of us will continue to worry about what the future holds - prosperity or calamity, sadness or joy. If history is our teacher, we shouldn't expend our precious energy worrying of what may or may not happen. Our past is behind us and we cannot predict our future, but we can surely control our present. This awareness of "THE NOW" is what truly sets us free. This liberating freedom allows us to let the universe be our guide and approach everyday with the sense of wonderment as children, where all things are possible.

At the start of 2019, I set out grand plans of what I wanted to accomplish and of course as with all other years, I have fallen short by 50%. But, in reality, I have really gained 50% more than where I started. This is a true testament of the power of setting goals with laser focus visualization, then putting your head down and carving away at the life you want to live. In the beginning, it may seem like you are not making any progress, but by the end of the year you'll look back and realize how far you've come.

My words of wisdom, for what it's worth, is if you're going to dream - then DREAM BIG because it's free! Then, work diligently with positive intent towards fulfilling those dreams and you'll be amazed by how the Universe will respond in ways you can't even imagine. - DREAM ON!

My Dear Sparkle Family:

It is that special time again! The season of New Year Resolutions; when we set ambitious goals with the full intent of accomplishing them.

Unfortunately, research shows that 80% of people have already given up by the end of February. That is because most people consider resolutions to be a “desired goal” they hope to accomplish, rather than a “necessity” to improve their life. If the goal is not necessary, it’s easy to give up and cuddle back into our comfort zone when the resolution is broken instead of restarting and trying harder.

We have all been in important life situations when we had no choice but to find a solution and take immediate action. The “necessity” forced us to act. So, we all naturally have this “sense of urgency” programmed in us. We just need to learn how to tap into it, at will, along with having a crystal-clear plan of how to reach the goal and be prepared to handle any setbacks that may come.

Club Sparkle’s “Life with No Limits!” philosophy is critical when we experience doubt, fear, and hesitancy, which are all limitations that block us from moving forward. This mental preparedness fortifies us to power through all situations and gives us the strength to pursue our goals with intense passion and dedication.

Although time is the one thing in life that nobody can stop, we all have ability to control what we do with the time that is given to us! This concept of time is what inspires me to stay focused on my goals, and my mission to make a positive impact on as many people’s lives as possible through Sparkle. I believe that true success is not just what you’ve done for yourself in this life, but what you have done for others and the world.

Over the past 5 years, we have created countless achievements together, spreading the Sparkle Spirit across Japan for better health, wealth and life transformation to tens of thousands of people’s lives. All this excitement has since expanded into other countries where people are also experiencing amazing life-changing results.

Lifelong success is developed on a foundation of small ongoing achievements. Therefore, it is my hope that we will tackle this New Year with forward thinking that will produce endless possibilities for us all.

I wish your hopes and dreams come alive and SPARKLE in 2020!

Club Sparkle Testimonial Kelly Rogers

SKIN CANCER SURVIVOR

I've shared my story many times, but find I am more excited each day as I see more and more of the results I'm receiving from the Club Sparkle products. And because of my results - I felt I needed to share it again.

Nine years ago I was diagnosed with skin cancer. I was shocked and mystified. I had been taking, what I thought, were amazing supplements for the previous 9 years. How could this happen to me?

But as much as I didn't want to believe it - I had cancer and I needed surgery.

Half my nose was removed and reconstructed in 2 surgeries, together lasting 16 hours. And then the healing began.

I added additional supplements, took more precautions, but each year, at my annual exams, there would be additional spots that needed to be scraped off, cut out or frozen. And I had accepted that would be my life until NOW.

I had noticed two suspect skin spots that, like the others, would scab up and never heal. I knew that they would be the next ones to be dealt with at the dermatologist. With my appointment out a few months, I wasn't in any hurry to go through another painful procedure.

Then, in February, I learned about Club Sparkle's products and how they rid the body of free radicals (cancer cells). I started taking them immediately. To my surprise and delight – four months later my suspect spots have healed! Healthy tissue has replaced the scabbing areas. For me, this is a miracle!

During those months, I found I was able to eliminate all the other supplements I had been taking; still feeling great each day. Having focused on learning all I can about Club Sparkle products; I've learned how they are different than other supplements with their 90-100% absorption rate, and how they are able to get into cells to do their magic like no other supplements I've encountered. This has been an easy transition for me with AMAZING results.

If you'd like to learn more about Club Sparkle and their products, please let me know. I'm a true believer and want to share these products with everyone.

WHAT PEOPLE ARE SAYING & FEELING... ABOUT EVERYOUNG

EVERYOUNG™

+ "I always felt light-headed and couldn't concentrate. After drinking EverYoung, I can focus a lot more, so I always drink it before studying or meeting Members. I'm now having an easier time memorizing things!"

T.F. (Tokyo, Japan)

+ "Because we need lots of energy to start the day, I drink Nectura and EverYoung mixed together every morning – this activates my metabolism to where it needs to be. Nectura and EverYoung has become the strongest energy source for my strenuous activities all day. I lost 10kg in only two and a half months! I was thrilled with these amazing results that I reached so quickly! I have made a huge change in my life! I now know how incredible Sparkle products are, and I will always have them as an important part of my life!"

M.T. (Fukuoka, Japan)

+ "I have severe disability, carpal tunnel syndrome, body pain, the list goes on! I took Nectura and EverYoung for a month and felt higher energy levels and less pain. The EverYoung supplement immediately cleansed my body and was a very tasty detox."

Sheila (Cerritos, USA)

+ "I have been taking various herbal supplements for years for my back pain. After trying Nectura and EverYoung for just 4 days, my back pain went away!"

Jennifer (Long Beach, USA)

+ "I have lost weight ever since I started drinking Nectura and EverYoung every single day."

K.A. (Wakayama, Japan)

*These are sample results. Results may vary depending on each individual.

MINDSET & MOTIVATION

The Missing Watch

A chef discovered to his horror that he had lost his watch somewhere in the hotel he worked in. It was very sentimental to him, having been left to him by his mother who passed away many years prior.

He had searched everywhere to find the special watch, but to no avail. Some children playing together asked what he was doing, and after discussion, the chef promised he would give a reward to the child who found the watch.

The children charged all through the hotel looking for the special watch. Everyone was about to give up when a young boy asked if he could have just a few minutes longer. The chef decided this was not a bad idea after all. The chef allowed the young boy to have access throughout the hotel. After a little while the little boy emerged with the watch in his hand! The chef, surprised and overjoyed, inquired how the boy had succeeded when no-one else could.

The boy explained, I didn't do anything special really. All I did was sit on the ground and just listened. As it was very quiet, I could hear the watch ticking and so knew which direction to look in.

Lessons of this story:

Research has found that silence has the effect of releasing tension in the brain and body that leads to measurable health improvement. The calm and peaceful mind can think and focus much better than a stressed-out, agitated, over-worked mind.

Spend even just a few minutes daily to silence your mind, and see how sharply this will help you to set your life course the way you want it to be!

Remember ~ A Focused mind is one of Sparkles 6 key elements for success!!

~ (Action, Belief, Commitment, Duplication, Exposure, Focus)

You can help quieten and focus your mind by simply sitting for a few minutes, focusing on your breath, staying silent and gently observing and letting go of your thoughts - instead of being caught up in them. Why not try it?

Question of the Month

I missed the deadline to pay my Autoship. How will this affect my saved share points?

If a Member does not make his or her Autoship payment during a payment period, his or her status will be changed to "inactive." When you become inactive, you will lose all accumulated points that you earned from both A & B Teams. If you have been inactive for an accumulated (consecutive or not) 16 Autoship payment periods within the one-year period starting from when you became inactive, you will automatically lose your VIP Membership.

At that time, if you have any share points balance kept in your wallet, you would need to send to Club Sparkle a cashout request within 60 days from when you lost your VIP Member status, otherwise, you will lose all your share points, etc.

Club Sparkle City of Dreams Gateway in

HOLLYWOOD

Qualification Period:

Sept 28, 2019 - Feb 29, 2020
