MARIELLE DANGELO-NIESEN

I use Ion5 in my morning 'Sunrise' cocktail that has Nectura and EverYoung in it and I experience balanced energy and concentration during the whole day. During the day I drink at least a half a gallon of water with 10 drops of Ion5 and I take extra drops when I feel a slight cold coming up. I know that the combination of all 3 products has brought me a strong immune system, a better sleep at night, no more fatigue or mood swings or intense food cravings and supple muscles and tendons for my yoga practice.

“*Sparkle is proud to feature our VIP OF THE MONTH and another fabulous product TESTIMONIAL!*”

TESTIMONIAL

KELLY ROGERS

Nine years ago I was diagnosed with skin cancer. I was shocked and mystified. I had been taking, what I thought, were amazing supplements for the previous 9 years. How could this happen to me? I learned about Club Sparkle products and how they rid the body of free radicals (cancer cells). I started taking them immediately. I found I was able to eliminate all the other supplements I had been taking, still feeling great each day. I've learned how they are different than other supplements with their 90 to 100% absorption rate and how they are able to get into the cells to do their magic like no other supplements I've encountered. This has been an easy transition for me with AMAZING results.

MINDSET & MOTIVATION

The little girl lived in a small, simple, thatched old house on a hill. She spent most of her childhood, playing in the small garden. As she continued to grow up, she was able to see over the garden fence, across the valley, to a wonderful house high on the hill.

This house had golden windows. They were so golden and shiny that the little girl would dream of how magical it would be to grow up and live in a house with golden windows instead of an ordinary house like hers.

Although she loved her parents and her family, she yearned to live in such a golden house and dreamed all day about how wonderful and exciting it must feel to live there.

When she finally got to an age where she gained enough skills and sensibility to go outside her garden fence, she asked her mother if she could go for a bike ride outside the gate and down the lane. After pleading with her, her mother finally allowed her to go, insisting that she kept close to the house and not wander too far.

The day was beautiful and the little girl knew exactly where she was heading! Down the lane and across the valley, she rode her bike until she arrived at the gate of the golden house across on the other hill.

As she dismounted her bike and parked it against the gate post, she focused on the path that led to the house and then on the house itself. Upon her arrival, she felt so disappointed when she realized that all the windows were nothing more than plain and dirty windows, reflecting the sad neglect of the house that stood derelict.

She was so sad that she didn't go any further and started making her way back, heartbroken as she mounted her bike. When she glanced up she saw an astonishing sight across the way, on her side of the valley was a little house and its windows glistened with golden colors ...as the sun shone on her little home.

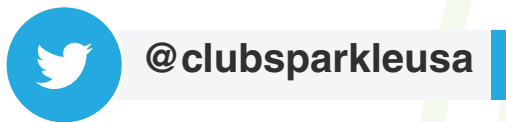

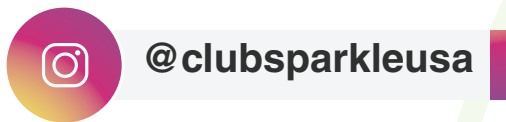

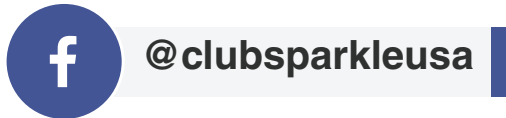

She realized that she had been living in a golden house all along. All the love and care she found there was what made her home the 'golden house'. Everything she dreamed was right there in front of her eyes!
